# Parents and Children Setting Goals Together

## FREE training for parents of children with ASD

Receive FREE access for up to one year to over 1500 video based training exercises through Rethink Autism.

[Click here to learn how this can benefit you and your child](#)

- Rethink Modules are only available to schools and clinics; only through this training will you receive access to the entire Rethink platform
- Gain knowledge on evidence based practices and applied behavior analysis strategies for real ways to work with your child
- Hear from top professionals in the field
- Gain skills in developing personalized goals and treatment plans that you can implement, as well as strategies for teaching your child to do the same

FREE online training available to any Texas resident who is a parent/caregiver or guardian of an individual with ASD between the ages of 3 and 22.

- Receive recommendations to navigate the Rethink Site so that you are able to set goals and determine necessary programming strategies for your child
- Attend on-line webinars
- Receive continued access to the Rethink platform and content-based information in the webinars while you are an active participant in the study
- To immediately determine eligibility and register [click here](#) or for more information contact the project co-director at [ASDparent@austin.utexas.edu](mailto:ASDparent@austin.utexas.edu)

Funding for this project is provided by the Texas Higher Education Coordinating Board.
